SMART VILLAGE LABS

Supporting the inclusion, well-being, and growth of rural areas through multi-actor **Smart Village labs*** for enhanced governance frameworks

* **Smart Village labs** are physical and virtual places that promote social inclusion through user innovation and social entrepreneurship, based on a participatory approach and the use of digital technologies.

Project objectives

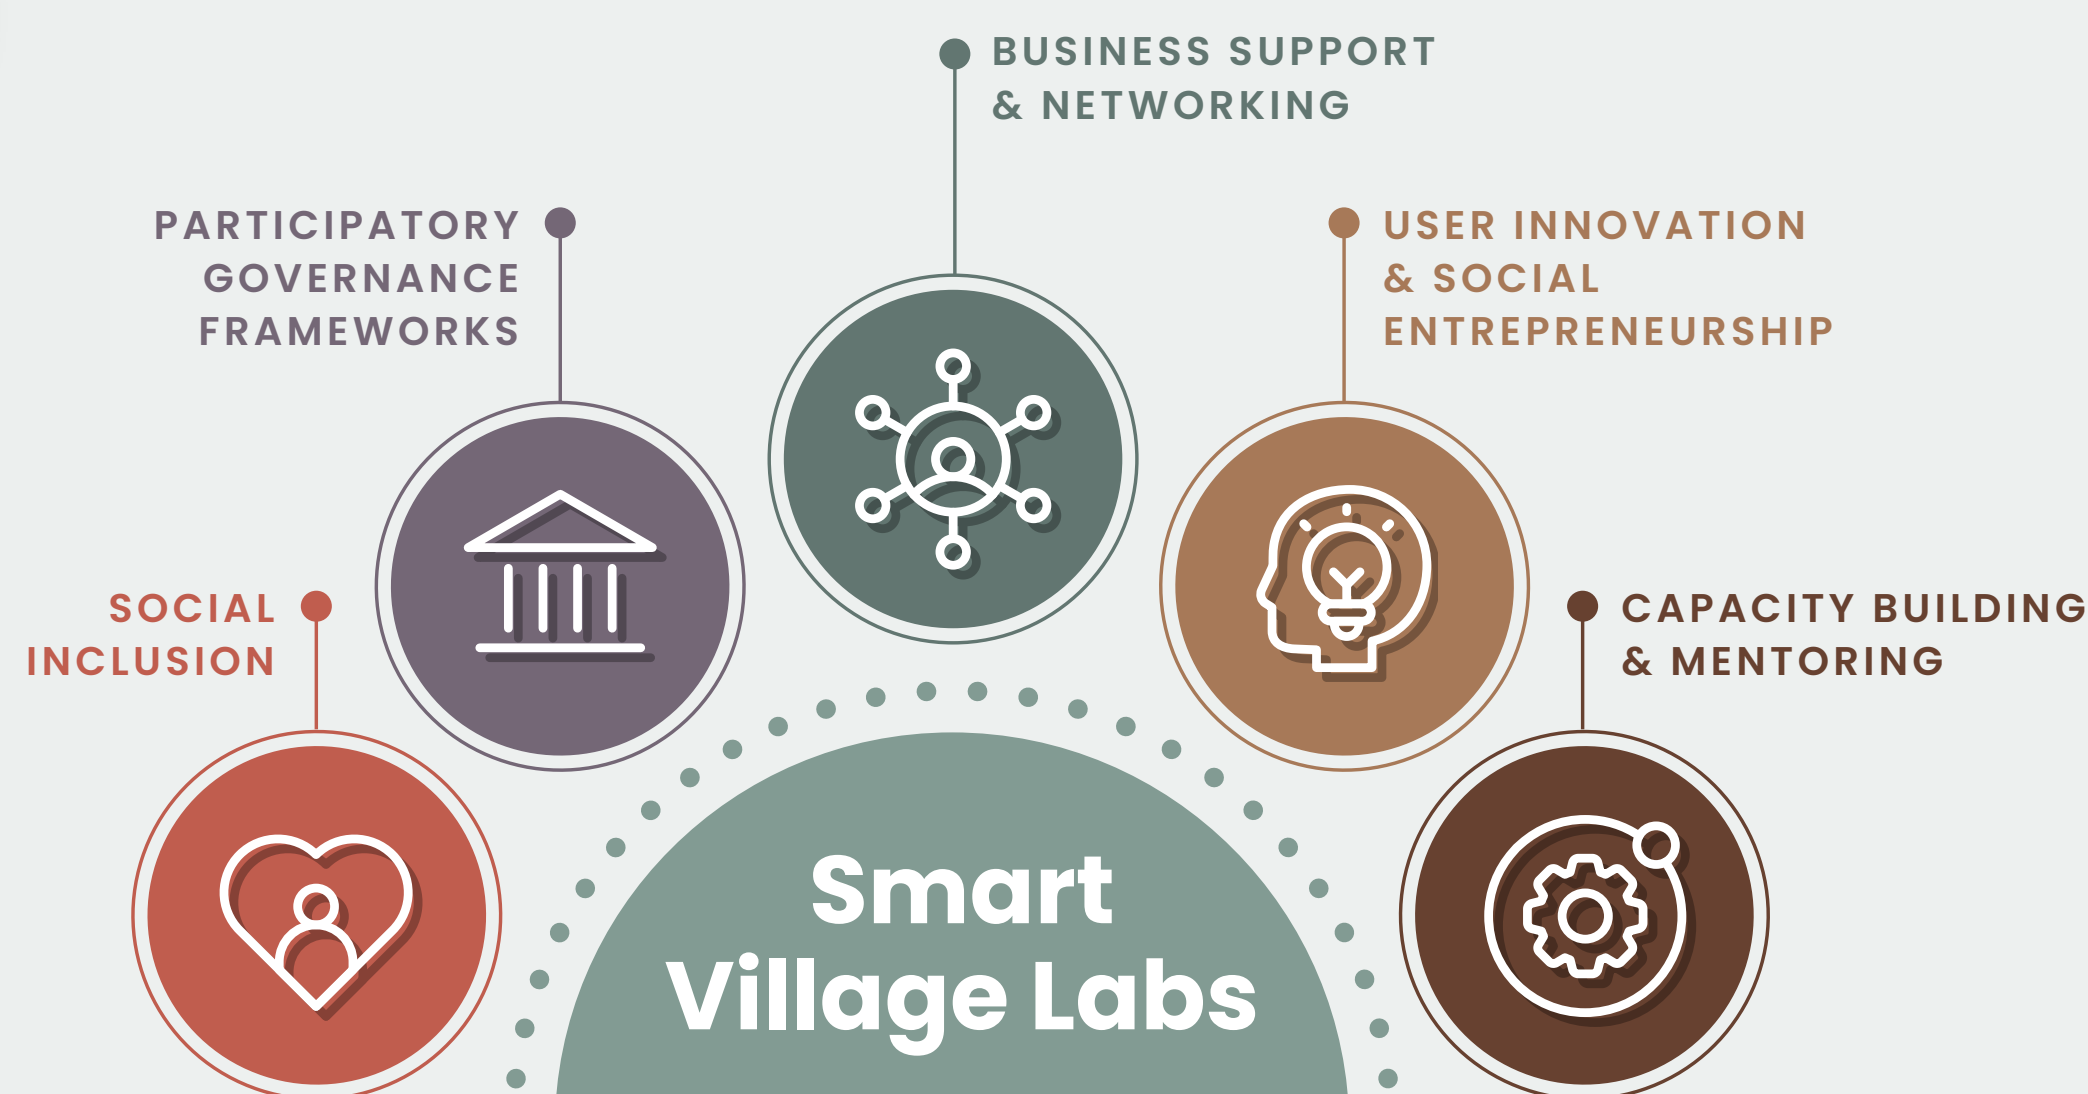

- 1 Understanding social inclusion in rural areas
- 2 Mapping and benchmarking social services and social economy models
- 3 Enhancing governance frameworks through Smart Village Labs
- 4 Co-developing and piloting social economy solutions in rural areas
- 5 Providing policy recommendations on social inclusion, vulnerable groups' service access and rural social economy

INSPIRE pilot cases: Smart Village Labs
